

Citizenship in a Virtual Learning Community

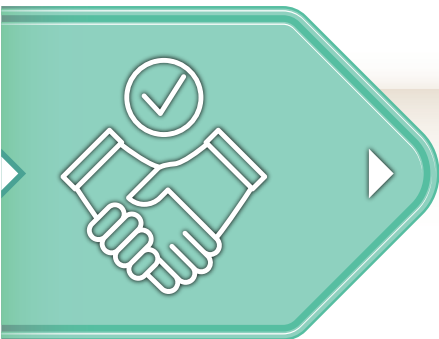

A Guide for Students and Families

>> Create

>>> Modern Learning

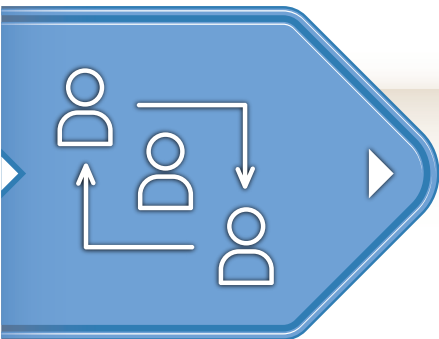

Create a designated learning environment in your home, and approach a day in virtual school with the same preparation as you would for a day in a school building.

>> Respect

>>> Privacy and Security

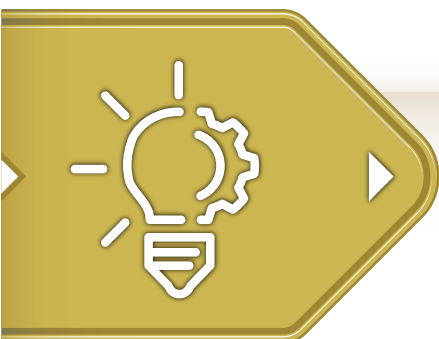

Demonstrate respect, care and kindness for all members of the learning community. Please respect the privacy of all students, families and OCDSB staff by refraining from capturing, sharing or posting: Images, video, audio, meeting spaces, or any identifiable personal information.

>> Connect

>>> Seamless and Innovative Technology

Students and families are encouraged to connect with school staff through established communication networks outside of the instructional hours.

>> Innovate

>>> Digital Transformation

Families can be Innovative by enhancing your knowledge and understanding of the tools available for synchronous (real-time) and asynchronous (independent) learning.

The [Parent Resource Page](#) is a great place to visit to support your virtual learning journey.
